AI-Powered Quiz & Assessment Generation

The screenshot shows the 'Quiz & Assessment Generator' interface. It includes a sidebar with a 'Features' list and a main panel for configuring the quiz.

Endpoint URL: `https://us-south.ml.cloud.ibm.com`

Connect button (red) and **Not connected** status (green).

Features list:

- ☐ Lesson Plan Generator
- ☒ Quiz & Assessment
- ☐ Student Performance Insights
- ☐ Multilingual Content
- ☐ Classroom Activities
- ☐ Teaching Resources

Version 1.0 • College Project

Quiz & Assessment Generator

Generate quizzes or formal assessments with model answers. Select the question type that suits your needs.

Topic *: e.g. Algebra, The Water Cycle, Shakespeare

Number of Questions *: 5 (slider)

Grade / Class Level *: Grade 5 (dropdown)

Question Type *: Multiple Choice (MCQ) (dropdown)

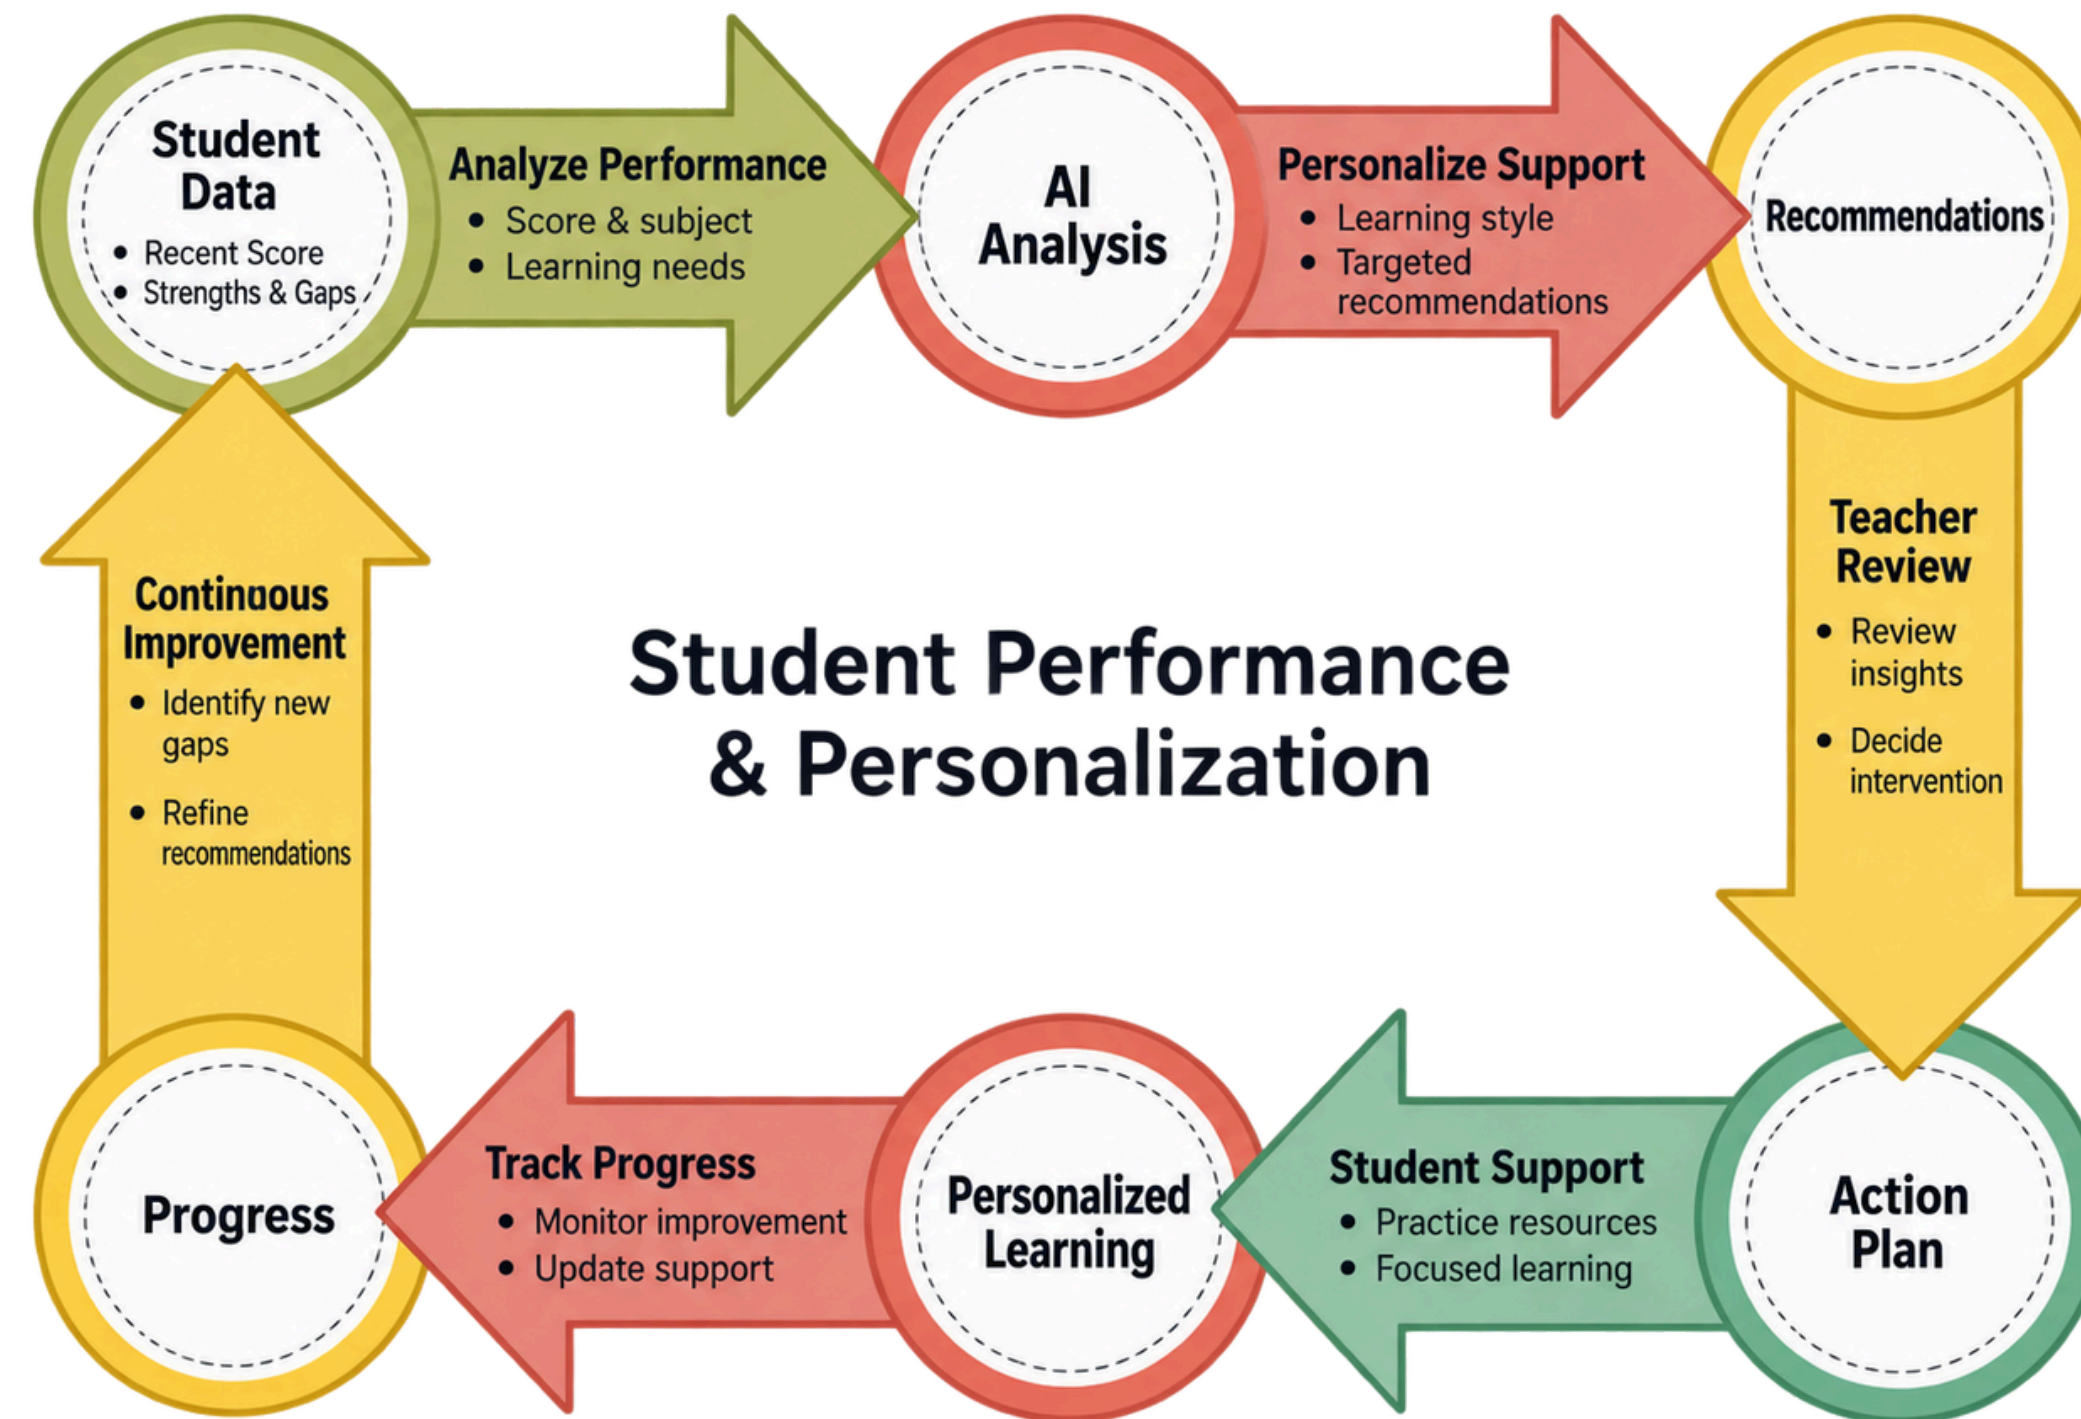

Difficulty *: Medium (dropdown)

Generate Quiz (red button) and **Generate Assessment with Answers** (grey button)

Deploy button (top right)

Teacher selects requirements → AI generates tailored questions → Teacher reviews and uses the assessment

Version 1.0 - College Project

Classroom Activity Generator

Classroom Activity Generator

01

Input Details

- Enter subject
- Choose class/grade
- Select activity type

Preparation

02

AI Generation

- Generate creative activity ideas
- Provide clear instructions
- Suggest materials

Incubation

03

Customize & Enhance

- Adjust difficulty level
- Modify for class needs
- Regenerate or refine

Illumination

04

Review & Use

- Check relevance
- Finalize activity
- Use in classroom

Verification
